

MESHCOM TECHNOLOGIES IN AGREEMENT WITH NORDIC GROWTH TO FINANCE FUTURE GROWTH AND MARKET ENTRY

Helsinki, Finland – November 28, 2008 - Meshcom Technologies, leading provider of high-performance wireless mesh-enabling software, today announced that Nordic Growth, an active minority investor in Nordic companies seeking above-average growth, has invested in Meshcom to facilitate future growth and expand the already impressive global presence.

Erkki Hietalahti from Nordic Growth comments: "Meshcom is at the forefront of technical development in facilitating real world applications for mesh networking, such as triple play services, and we are happy to support their expansion in this high growth market segment."

Miska Kaipainen, CEO & Founder of Meshcom explains: "We are excited about the market situation today since we can offer proven solution for mesh networking that fulfill its expectations – it just works and enable instant cost savings. Being backed up by Nordic Growth gives us opportunity to expand our product portfolio and address the global demand by spreading our products and technology to global markets."

About Meshcom Technologies
